Some formulars for job-market survey, etc.  
b. Duties, responsibilities that will have the Contact Group  
c. A better knowledge of the graduate tracking and job-market analysis.  
d. Information on EU university system, specialy in this last times, and Bologna Process and mostly on the ECTS.  
e. We want to know more about what we have to do, for getting the Academy at the level of the University Structures as those of the European Community.  
f. We need more information about the building of the Tutorial office for mobility and free intensive courses of English and Italian.  
g. help on how to make the administration more functional, so to offer better services to students and Fac, and more apt to deal with the challenges and needs stemming from the country’s emerging transformations.

We have studied the necessities of our library and its needs, nut we need help for better knowledge on the very immediat necessities to be fullfilled, this way we can already even this year begin to spend some money in that direction.

We already have our web page of the Academy with the address: [www.aefs.edu.al](http://www.aefs.edu.al), where we have reflected some information about the Academy and it’s structure. We need to know what else we can make to enrich it.

We have now more than 20 computers at the Academy and this year we will double it with more than 20 other computers.

A better knowledge on the AEHESIS will be a great help for the Contact Group and the Pedagogic Staff.
